We went to Papa John’s and Pizza Hut so we could figure out how to make a pizza place. We found out how the oven works. We learned you need a screen under the pizza in the oven.

We decided to make our own pizza place in the dramatic play area.

We made notes about what we would need for a restaurant.

First, we built a pizza oven.

Then we voted on a name for our pizza restaurant. The one with the most votes was “Cheesy Pizza.” We made a sign.

We made salads, pizzas and bread sticks.

We started rearranging the furniture. We put all the things we didn’t need in a basket and put them in the soft spot or the back.

We had to move tables and put different things in dramatic play and in the science table area.

We made a fish tank, cups and flowers for the tables.

We put the oven, pizzas, bread sticks, salads, cups, plates, sauce cups, tablecloths, aprons and hats in the restaurant. We put in a phone, cash register and money. We put some money in the Mystery Box for the customers so they could have money to buy food.

We needed a sign to tell the workers how to dress. So, we made one.

We started playing in the Cheesy Pizza. We realized we needed more things.

We got a red bucket and 2 white cloths to use to wash the tables. We added note pads and pens to use when people order. We got some trays to use for serving food.

The Cheesy Pizza is good!!!!
We would like to thank the following people who helped us learn about pizza restaurants:

Joe and John at Papa John’s Pizza on Dale St. in Normal

Katie, Joe and Lauren at the Pizza Hut Express in Bone Student Center

Illinois State University
Child Care Center
